

IMS024	Biodiversity and Stewardship Policy	
Version 2	Date 16/10/23	Approved by -Chris Ward

Stanley Wire Limited is committed to conducting its steel wire manufacturing operations in a responsible and sustainable manner that respects and conserves biodiversity and natural resources. We recognize the importance of minimizing our environmental footprint, preserving ecosystems, and ensuring the well-being of the communities in which we operate. This Biodiversity and Stewardship Policy outlines our commitment to biodiversity conservation and responsible stewardship of our natural surroundings.

Compliance with Applicable Regulations

Stanley Wire Limited will comply with all relevant environmental laws, regulations, and international standards related to biodiversity conservation. We will continually monitor changes in legislation and adapt our practices accordingly.#

Biodiversity Conservation

- a. Stanley Wire Limited will assess and minimize its impact on local biodiversity by conducting regular biodiversity assessments and implementing conservation measures to protect ecosystems near our facilities.
- b. We will work to restore and enhance biodiversity by participating in reforestation, habitat restoration, and other relevant conservation efforts.
- c. Stanley Wire Limited will strive to reduce and manage any invasive species that could threaten local biodiversity.

Sustainable Resource Management

- a. We are committed to responsible sourcing of raw materials and will work to reduce our environmental footprint by minimizing resource consumption.
- b. We will promote efficient use of resources, energy, and water to reduce waste and emissions.
- c. Stanley Wire Limited will explore opportunities for recycling and reuse of materials to minimise waste.

Community Engagement

- a. We will actively engage with local communities to understand their concerns and contribute to the well-being of the regions where we operate.
- b. Stanley Wire Limited will support and engage in community projects that align with biodiversity conservation and sustainability.

Employee Training and Awareness

- a. We will provide training and awareness programs for employees to foster a culture of responsible environmental stewardship.
- b. Our employees will be encouraged to report environmental concerns and suggest improvements.

Continuous Improvement

IMS024	Biodiversity and Stewardship Policy	
Version 2	Date 16/10/23	Approved by -Chris Ward

- a. Stanley Wire Limited will regularly review and update our biodiversity and stewardship initiatives to align with best practices and emerging standards.
- b. We will set measurable goals and track our progress towards reducing our environmental impact and conserving biodiversity.

Transparent Reporting

- a. We will provide regular reports to stakeholders, including the public, about our biodiversity and stewardship efforts, progress, and challenges.
- b. Our reports will include information about our environmental impact, conservation projects, and community engagement activities.

Collaboration and Partnerships

- a. Stanley Wire Limited will collaborate with government agencies, non-governmental organizations, and other stakeholders to advance biodiversity conservation and sustainability.
- b. We will actively seek partnerships and alliances that promote responsible stewardship.

By adopting this Biodiversity and Stewardship Policy, Stanley Wire Limited is dedicated to reducing its environmental impact, conserving biodiversity, and promoting sustainable practices. We will continually strive to improve our efforts and lead by example in the steel wire manufacturing industry.
